Firemen Called Out Twice As Old Year Nears Its End

Bristol firemen were called out twice as 1949 was ending on Saturday, Jan. 2, when a fire broke out in the barn and garage of Paul N. McGinley, 547 Locust street, burst into flames. The second call was to a fire in the interior of 1218 Court J, Bristol Terrace II.

The McGinley barn was considerably damaged. The origin of the blaze has not been determined. A new automobile which is garaged in the building was out at the time. The McGinley family had just returned home from Trenton.

The residence of William Bell, 1218 Court J was unoccupied at the time of the fire. Bristol firemen responded to the call and estimate the damage done at about \$500.

A SUMMARY OF THE NEWS

Battle lines for the session of Congress opening today were drawn by leaders of both parties with an eye on next fall's Congressional elections. The Democrats, although dubious of victory on several issues, plan to stand on President Truman's Fair Deal. The Republicans will center their fight on domestic phases of that program and will demand reduction of wartime excise taxes, a balanced budget without new taxes and heavy cuts in foreign aid. They are expected to count heavily on a Commerce Department report that since June, 1945, the United States has spent \$28,187,000,000 in grants, credits or capital investments for foreign aid.

Former President Hoover and Senator Taft urged the United States to protect Formosa against any attack by the Chinese Communists, a move opposed by the Administration. In a letter to Senator Knowland, Mr. Hoover gave seven reasons for supporting the Nationalists and providing naval protection to Formosa, the Pescadores and possibly Hainan. British observers feared the effects on relations with the United States through London's intention to recognize the Communist regime while Washington demurred.

News of Schools In Area

Bristol Township

During the week previous to Christmas vacation the children of the kindergarten were pleasantly surprised when Dr. E. G. McGruder of Bristol visited them and showed two films, "A Present for Santa Claus," and "The Night Before Christmas."

On Thursday of the same week a Santa Claus arrived too, and left each child a coloring book and placed a candy cane in the stockings that the children had made and hung up awaiting his visit!

Since children of all ages should be taught the "joy of giving" as well as receiving at the Christmas season, each child had a "personally made" gift to take home to mother.

The carol sing at Maple Shade school was much enjoyed. The children of all grades assembled outdoors, sang many carols under the direction of the music supervisor, Mrs. Erna McKevitt, and presented a school gift and a P.T.A. gift to the janitor, Mr. George Mohr.

Councilmen Sworn In at Ceremonies Held in Municipal Building — Harold F. Hunter Re-Elected as Treasurer — Committees Named by Newly-Elected President — William H. H. Fine Inducted as Tax Collector.

Bristol's borough council organized last evening by the election of a president, secretary and a treasurer and the appointment of committees to carry on the work of the body. John Smoyer, 3rd, was chosen president; John Paglione, secretary; and Harold Hunter was re-elected as treasurer.

Previous to the organization of council, the members thereof, who were either re-elected or elected at the general election in November, took the oath of office, as did also I. J. Hetherington, Sr., as burgess, and William H. H. Fine as tax collector.

The ceremonies were witnessed by a large group of relatives and friends of those taking the oath as officers of the municipality. The spectators assembled in the council chamber, and it soon became evident that larger quarters were needed, so the ceremonies were transferred to the assembly room of the municipal building.

Standing beside an American flag, I. J. Hetherington, Sr., subscribed to the oath of the office of burgess, with Anthony Niccol, newly-elected justice of the peace, administering the oath. In the audience was Mr. Hetherington's wife, his two sons and a grandson. A number of members of Robert W. Bracken Post, No. 382, American Legion, and the Chester W. Terchon Post, Veterans of Foreign Wars, both of which Mr. Hetherington is a member, were in attendance.

The meeting was called to order by Joseph B. Keating, secretary of the outgoing council, who stated that the purpose of the assembly was to organize council.

The following members took the oath of office as councilmen, as a group, after presenting their certificates of election: John S. Lynn, Francis J. Byers, first ward; S. Joseph Aita, 2nd, Nicholas Pascale, second ward; William Wallace and Thomas Gosline, third ward; Dennis J. Burgess Hetherington, in a brief address, thanked those in the audience for being present, and said that it indicated "a step forward in the history of Bristol. It is the first time there has been such a turnout upon such an occasion and I hope you will continue to support myself and the members of council. We are your elected representatives."

Mr. Hetherington invited the public to attend the sessions of council and predicted that council would give Bristol better government if it was known that the people of the community were interested. He thanked the veterans for attending and said that there would be nothing hidden in his office as burgess. He told those assembled that he is going to take the public into his confidence. "This council is no different than the preceding council," he said. He told of the time spent by the councilmen in the public's behalf. He said that he does not want to receive anonymous letters and invited those having matters to discuss with him as burgess, to do so across a table in the open. He told of having already received anonymous letters.

Outlining some of the things he has in mind to do as burgess, Mr. Hetherington said that next month he will meet with the business men

ONE MAN'S OPINION

By Walter Kiernan (Distributed by International News Service)

Happy New Year . . . and as Dr. Einstein might say "may all your problems be relative and your relatives be theories in the new year."

Einstein says to call back in 20 years and he will be ready to explain his new theory . . . If he's not ready, wait a little.

In the meantime we will have the State of the Union message . . . that ought to keep us occupied.

And as between the Professor's and the President's interpretation of gravity, Mr. Truman's will be more immediate.

Congress returns to Washington today . . . All the members have delightful memories of the Christmas holidays and will now take up the tax bill and spoil years.

But things will really begin to get interesting when these revenue measures get two-thirds of the nation where one-third used to be.

They've been taking it off the top so long the top is getting closer to the bottom.

MEDICAL FRANKNESS

At the recent meeting of the American Medical Association in Washington, D. C.—of all places—some of the medicos went deeper than diagnosis, diet and doses. They suspected that America may have ailments which they describe as too much civilization.

Not everything Americans do is progress, they concede. Some old-fashioned treatments are better than scientific cures. Nothing has been found to cope with the common cold that is better than rest. Grandpa's cough remedies, including "medicinal" doses of whiskey, were endorsed. As for children's ailments, outside the epidemic diseases like diphtheria, the old-fashioned mother knew as much as the modern specialists, sometimes more.

On the too-much-civilization theme the doctors observed that young mothers serve an apprenticeship in office and factory where they are tied to routine. When a baby comes they measure out his calories, tabulate the hours of sleep and consult the scales. This is what the docs call "tense perfectionism." Tenseness is the national sin. A government official calculates that a tenth of the children now in public schools will grow up to become candidates for mental hospitals.

Another note struck by the doctors was that Americans are losing their self-reliance. Many in hospitals make no effort to improve their condition. They might get on their legs and return to gainful occupation, but their total trust is in medical science. They are too dependent upon somebody or something else. That's why the social welfare politicians are making so much hay these days.

These discussions of people's sins and shortcomings are valuable. They could result in changes for the better.

WINTER IS HERE

Goosebone prophets and others who predicted a winter without weather—winter weather, that is—were not so numerous last fall as in former years, perhaps because they remembered their harrowing experience of last winter.

But, while there has not been a recurrence of the concatenation of blizzards that held a large part of the West in its grip for weeks last winter, there has been real winter weather in all parts of the country.

Smudge pots have been in evidence in the citrus belts, and Florida has had some finger-stinging temperatures. In the Cold Belt the next few months will be a period of winter weather, with a capital W, interspersed with an occasional chinook, without a capital C. But this is as good a time as any for it. Winter is here.

If coal miners are to starve, "we'll all starve together," says John L. Lewis, who has an income of \$50,000 a year and unlimited expense account.

Well, actually, it wasn't imported. The lady bought it at a reliable local store (on her Boyd card), and it was a better dress than many imported ones. She expected to get a lot of service from it. In selecting a cleaner, therefore, she wisely chose THOMAS TAYLOR, because everyone told her "TT" would give her dress loving care.

If you have good clothes—men's, ladies' or children's—and want to keep them looking new, we suggest you make the same decision. We have the modern equipment, the experienced personnel, and the owner-supervision that assures customer satisfaction.

to discuss Bristol and its future. He said that later he will consult with other groups of men and women and with industry to consider and discuss things affecting Bristol. Burgess Hetherington then asked for nominations for the office of president of council. Dennis J. Roche placed the name of John Smoyer, 3rd, in nomination, it being seconded by Joseph H. Foster. There being but one nominee for the office, Secretary Keating was instructed to cast the ballot. Smoyer was declared elected.

Taking over the meeting as president of council, Mr. Smoyer called for nomination of a secretary. This was for the full-time position recently created at a salary of \$4,000, and places the secretary in the position of practically being the borough manager. James Eagan nominated John Paglione, and Joseph Ferry seconded the nomination. There being but one nominee the ballot was cast by the secretary.

The next position to be filled was that of treasurer, the duties of which have been considerably cut, some being transferred to the full-time secretary, and that of collecting the amusement tax being placed in the hands of the tax collector. Harold Hunter, the outgoing treasurer, was re-elected. He was nominated by S. Joseph Alta, 2nd, the nomination being seconded by John H. Wichser. The ballot in this instance was also cast by the secretary.

Both the secretary and the treasurer were elected for two years, and the president of council was elected for two years.

Mr. Roche then nominated Livingston Joyce as borough engineer for three years and the nomination was seconded by Councilman Pascale. Mr. Joyce was invited to the front of the room and briefly addressed those assembled. "You all know me," he said. "I have been out after water bills for 40 years, and the bills are ready to be mailed tomorrow." This brought forth a humorous situation and the audience applauded.

President of Council Smoyer said that he was surprised to see so many present at the induction ceremonies. "We have had open meetings and we have advertised such meetings, but never got a crowd out like this." He said that he considered it an honor to serve as president of council for the next two years and that he would have but one purpose—"to do what I think best for the whole community." He asked the councilmen to forget politics and to work together in harmony. He told of some of the projects which would come up, mentioning the sewer project, increased water supply, and suggested an incinerator. He said that those selected for the various committees had been chosen because

they were considered best for the respective duties.

He then announced the following committees:

Finance and Public Property: Joseph Ferry, chairman; Francis J. Byers, Edward Riley, James Eagan and George Duffy.

Street and Highway: James Eagan, chairman; Francis J. Byers, Joseph DeLissio, Nicholas Pascale, George Duffy.

Health and Sanitation: Richard T. Myers, chairman; Nicholas Pascale, Dennis J. Roche, John H. Wichser, Joseph Ferry, George Duffy.

Water Supply: Dennis J. Roche, chairman; John S. Lynn, William Wallace, S. Joseph Alta, 2nd, Joseph DeLissio.

Fire Protection: John H. Wichser, chairman; Clarence W. Winter, Dennis J. Roche, Thomas Gosline, Joseph DeLissio, Francis Kryven.

Police Protection: S. Joseph Alta, 2nd, chairman; John S. Lynn, James Eagan, William Wallace, Edward Riley and Francis Kryven.

Public Works: Joseph H. Foster, chairman; Clarence W. Winter, Richard T. Myers and Thomas Gosline.

The privilege of the floor was extended to Paul Tomlinson upon the request of S. Joseph Alta, 2nd. Mr. Tomlinson presented a leather brief case as a gift from the Lower

Bucks County Branch of the CIO to Anthony Niccol, newly-elected justice of the peace, who had administered the oaths to the newly sworn in borough officers. Mr. Niccol extended his thanks for the gift. He was also presented with a bouquet of flowers.

Secretary Paglione briefly thanked the councilmen for having chosen him as secretary, and said he would endeavor to discharge the duties of the office with fidelity and integrity and to the best of his ability.

1950 To Be Good Year For Minnesota Mfg. Co.

ST. PAUL, Minn., Jan. 3 — Richard P. Carlton, recently elected president of the Minnesota Mining & Manufacturing Co., looks forward to 1950 as a year of "continued growth and increased sales" for his firm.

Summing up operations for 1949, Carlton recalled that at the end of the third quarter 3M sales were \$83,200,000, an increase of \$3,400,000 over the same period for 1948. "And it looks now as if our 1949 total sales will be higher than the \$108,000,000 record we set in 1948," he predicted.

A number of new products were introduced during the year which were well received and show promise, he noted.

Among these are an "amazingly strong" filament tape for shipping and packaging, a new ceramic tile adhesive which can save as much as half a ton of weight in tiling a bathroom or kitchen, a machine for mass production of pre-recorded reels of magnetic sound tape, a mailing-piece sealer designed to use the firm's pressure-sensitive tapes, "Lacelon" plastic ribbon and a simple-to-use autobody sealing compound.

"The same research effort which

produced these products will be put to use on many more ideas during the coming year," Carlton said. "That, along with aggressive merchandising, should provide the basis for continued growth and increased sales in 1950."

Bucks Bird Population Checked By Naturalists

RICHBORO, Jan. 3 — Bucks county's bird population is quite large and varied, according to a count made by members of the Neshaminy Valley Nature Club, as part of a national Christmas survey that is compiled each year by nature clubs for the Audubon Society.
Armed with field glasses, a group of Neshaminy club members spent all day Monday from sunrise to sunset flushing, counting and identifying the feathered friends along the Neshaminy, the Ironworks creek and the expansive Springfield reservoir east of Churchville. The group covered upwards of 20 miles on foot through brush, grownup fields, and marshes.
The unseasonal presence of an American egret and of a snow bunting, usually found in the far north, were the most unusual items to be reported to the Audubon Society.
There were evidences of large numbers of mallards, for which the reservoir and the Neshaminy are

favorite spots, and also flocks of black and baldpate ducks.
Altogether, 38 species were listed the largest numbers being crows, tree and song sparrows, chickadees and juncos.
Other species noted were: Cooper's sparrow, sharp-shinned and red-tailed hawks, the merganser, herring gull, rock dove, mourning dove, screech owl, long-eared owl, downy and hairy woodpeckers, flicker, kingfisher, blue jay, tufted titmouse, white-breasted nuthatch, blue bird, ruby-crowned kinglet, meadowlark, Carolina wren, robin, cardinal, goldfinch, starling, English sparrow, and white-throated sparrow.

Bristol Farmer Sells Registered Holstein Cow

Change of ownership for this ani-

mal, Dean Anastasia DeKol, has been officially recorded by the Holstein-Friesian Association of America.
The Association issued 30,245 registry and transfer certificates to Pennsylvania breeders during 1948.

No wonder they're calling them
"TOP CHOICE FOR 'FIFTY"

They're greater in power—higher in compression—a standout in styling—dreams to drive—and now there's a Buick beauty for 1950 to fit practically any budget

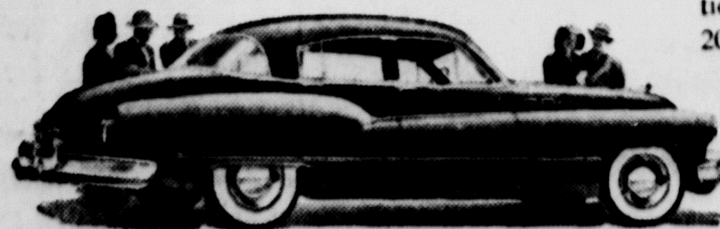

No, we just couldn't hold back the whole big Buick line for 1950.

They're too good-looking—too much fun to drive—too jam-packed with stepped-up, higher-compression, ready-to-ramble power—to be kept under cover.

So maybe you've already seen some 1950 Buicks on the highway.

Maybe you've noticed the extra "git up and travel" they have—glimpsed the wide, curving windshields (one piece in most models)—noted, approvingly, that the typical Buick taper is now found in all Buick fenders.

Maybe you've even heard some things...

LOTS OF LUGGAGE SPACE, plus a high-fashion rear-end treatment, graces the Buick tourback Sedan models for 1950. This is the ROADMASTER, and above is the SUPER version of this much-wanted 4-door, 6-passenger Sedan.

Phone your BUICK dealer for a demonstration—Right Now!

That there are more than a dozen-and-a-half models to choose from. That there are three power plants in the Buick line—all of higher compression, all stepped up in power.

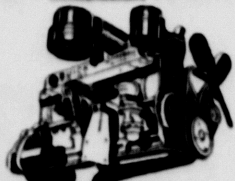

That all models are big and roomy inside—some rear seats are better than a foot wider than before!—yet in every instance, shorter over-all, so easier to handle, park and garage.

Above all, maybe you've heard of exciting news on price...

That Dynaflo Drive, for instance—standard on ROADMASTER models, optional on all others—now costs 20% less than on 1949 models.

POWER NEWS WITH A REAL PUNCH!

Here's just one part of Buick's three-way power story for 1950—the brand-new F-263 valve-in-head straight-eight. Packing a wallop that makes the SUPER a stand-out performer of the season, here is still higher compression and still greater power in no greater over-all size. You'll get this new engine on all SUPER models, in 124 hp with Synchro-Mesh transmission, 128 hp with Dynaflo Drive.

That in the full line—SPECIAL, SUPER and ROADMASTER series—there is a Buick to fit practically every budget above the very lowest!

Pictured above is the 1950 SUPER 4-door Sedan, one of the new Buick body types for 1950. At your Buick dealer's are more actual models, the whole story on others.

Hadn't you better see him—right now—and see if you, too, don't find Buick "top choice for 1950"?
